When going shopping, don't think you always have to purchase feminine clothing. Many times people have a different style that is a close second. Wear what you like but realize you lean more towards the Feminine Personal Style. Whatever you wear, make sure you bring out your true self.

Caution: Need to be careful not to come across to frilly or little girlish especially in business situations.

There is no right or wrong style because your style is unique to you. It is an expression of who you are. So have fun with it while realizing its impact on your personal brand.
