sophisticated

You are polished, chic and always put-together in the way you dress. Every piece of clothing is perfectly-tailored. You are considered trendy, fashionable, smart and striking. Your color palette is black, black and black, and grey with accents of white and bright primary colors, like red and cobalt blue. Your wardrobe is a symbol of style and is minimal in nature as you go for quality over quantity. You love high quality chic jewelry, high style shoes and a designer handbag.

When going shopping, don't think you always have to purchase sophisticated clothing. Many times people have a different style that is a close second. Wear what you like but realize you lean more towards the Sophisticated Personal Style. Whatever you wear, make sure you bring out your true self.

Caution: Can often look unrelatable and in a league of your own in the business world because of your elegance and style.

Stick with all solid monochromatic color outfits that are fairly simple for those occasions when you want to appear more like everyone else versus standing out.

There is no right or wrong style because your style is unique to you. It is an expression of who you are. So have fun with it while realizing its impact on your personal brand.
